DETAILED ACTION

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 1-3 and 5-9 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Valint, Jr. et al (U.S. 5,981,675). Claims are rejected for reasons of record. Applicants have argued that the references cited do not teach the claimed crosslinker with two unsaturated groups. Whereas this is true for the '669 reference, the '675 reference does, in fact, teach the claimed polysiloxane crosslinking monomers as represented by formula III. The claimed prepolymers are, therefore, substantially the same as those taught by the reference to Valint, Jr. et al, and are reasonably presumed to possess the same characteristics, In re Best, 195 USPQ 430, 433(CCPA 1977); In re Fitzgerald et al, 205 USPQ 594.
3. Claims 15-18, newly submitted, are drawn to species constructively non-elected by original presentation insofar as claims 5 and 6 narrowed the constructive election of the crosslinking agent to the siloxane structures specified in these claims. These claims are, therefore, withdrawn from consideration as being drawn to non-elected species.
3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

Art Unit: 1713

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
